

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## Outlines of Geologic History with Especial Reference to North America

Symposium Organized by  
**BAILEY WILLIS**

Compilation Edited by  
**ROLLIN D. SALISBURY**

**G**EOLOGISTS and all readers of geologic literature will welcome the publication, in book form, of an important series of essays and discussions on the subject of geologic correlation under the title, *Outlines of Geologic History with Especial Reference to North America*.

They embody the present state of knowledge and opinion concerning many of the fundamental problems of North American geology, and form an admirable supplement to earlier treatises and manuals.

The value of the book is greatly enhanced by the fifteen paleogeographic maps by Bailey Willis which accompany the papers.

316 pages, 8vo, cloth; price \$1.50, postpaid \$1.65

**The University of Chicago Press**  
Chicago - - - Illinois

## POSITIONS OF ALL KINDS

Never was the demand so great for qualified teachers and specialists. For ten years we have given our time and energy to this work. Write for our free literature. State qualifications briefly.

**Co-operative Instructors' Association**  
Marion - - - Indiana

## The Summer Quarter

Courses are the same in educational and credit value as those offered in other quarters of the year.

The colleges, the graduate schools and the professional schools provide courses in Arts, Literature, Science, Commerce and Administration, Education, Law, Divinity, Medicine, and Social Service Administration.

Ideal place for recreation as well as study, golf, tennis, rowing, etc. Two great parks and Lake Michigan within walking distance.

Students may register for either term or both.

1st Term—June 20—July 27

2d Term—July 28—Sept. 2

Write for complete announcement

## Water Reptiles of the Past and Present

By **SAMUEL WENDELL WILLISTON**

Professor of Paleontology in the University of Chicago

Professor Williston, who is widely known as a student of extinct reptiles and as the author of *American Permian Vertebrates*, which has now become a standard work, presents in this new volume a summary, divested as far as possible of unnecessary scientific details, of our present knowledge concerning the reptiles of the seas, lakes, and rivers of past and present times. While no attempt has been made, save incidentally, to discuss the strictly terrestrial reptiles, twelve of the fourteen orders of the class recognized by the author are treated more or less fully—their structure, habits, geological distribution, etc. Unlike most of the books for the general reader treating of "ancient monsters," the present work is by an author who has spent many years in the field and laboratory in the collection and study of extinct reptiles.

The numerous illustrations, in large part from the pen or brush of the author himself, include not only living types and twenty-four restorations of extinct forms, but also many figures elucidating the structure and habits of the animals.

viii+252 pages, royal 8vo, cloth; \$3.00, postpaid \$3.20

# **The Geology of Vancouver and Vicinity**

*By* **EDWARD M. J. BURWASH**

*14 half-tones, 10 line drawings, and 2 colored maps*

**D**A thorough and authoritative survey of the region, made more interesting by the remarkable photographs, which include a profile of the Grouse Mountain spur, the Lions from Mount Brunswick, a view of Red Mountain from Black Tusk Mountain, Mount Garibaldi from the south, a glacial section from a cutting on Keith Road, and others equally interesting. One colored map shows the topography of Vancouver range and the other is a geological map of Vancouver and vicinity.

*112 pages, paper covers; \$1.50, postpaid \$1.60*
